1. PRODUCT AND COMPANY IDENTIFICATION

Product Name Aloe Hyaluron Creme Spray

Recommended Use Animal Skin Care Lotion

Supplier Address Durvet, Inc.
PO Box 279
Blue Springs, MO 64013 USA

Company Emergency Phone Number 816-229-9101

2. HAZARDS IDENTIFICATION

Emergency Overview

May be harmful if swallowed. May Cause Eye Irritation.

Appearance White to Off-White

Physical State Gel

Odor None

Potential Health Effects

Principle Routes of Exposure Eyes, Skin, Inhalation and Ingestion

Acute Toxicity

Eyes

Avoid contact with eyes. Severely irritating to eyes. Seek Medical Attention.

Skin

May cause irritation to damaged skin.

Inhalation

Causes respiratory irritation. Symptoms may be delayed for several hours.

Ingestion

Seek medical attention.

Environmental Hazard

See Section 12 for additional Ecological Information

This Space Intentionally Left Blank.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS-No	Weight %
Water	7732-18-5	60 - 80
Sodium Hydroxide	1310-73-2	0.01 - 0.2

3. COMPOSITION/INFORMATION ON INGREDIENTS		

4. FIRST AID MEASURES

General Advice Call emergency medical service. Remove and isolate contaminated clothing and shoes.

Eye Contact In case of contact with eyes, remove contacts if needed, immediately flush eyes with running water for at least 20 minutes. Get medical attention immediately.

Skin Contact Avoid spreading material on unaffected skin. Remove contaminated clothing. Wash off immediately with plenty of water for 15-20 minutes. If Irritation or burning occurs, seek Medical Attention Immediately!

Inhalation Move injured party to fresh air. Apply artificial respiration if injured party is not breathing. Administer oxygen if breathing is difficult. Get Medical Attention Immediately!

Ingestion Do not induce vomiting. Rinse mouth. Drink large amounts of water. If vomiting occurs, give additional amounts of water once stopped. Seek Medical Attention.

5. FIRE-FIGHTING MEASURES

Flammable Properties Not considered a fire hazard. Non-combustible, substance itself does not burn but may decompose upon heating to produce oxygen, corrosive and/or toxic fumes. Containers may rupture due to gas build-up when heated. Material will react with water, certain metals to produce hydrogen gas.

Flash Point Not Flammable.

Suitable Extinguishing Media Use water or suitable agent for fires. Do not use solid water streams. Caustic reacts with water, generates heat and can splatter onto personnel. Care should be exercised when water is used to dilute caustic. Will react with water and generate heat and fumes. Use water spray to cool fire-exposed containers, dilute liquid and control vapors.

Hazardous Combustion Products Oxygen, Hydrogen

Explosion Data

Sensitivity to mechanical impact	Not sensitive
Sensitivity to static discharge	Not sensitive

Protective Equipment and Precautions for Firefighters In the event of a fire wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode. Wear full protective clothing.

National Fire Protection Association (NFPA) Ratings: This information is intended solely for the use of individuals trained in the NFPA system.
Health Hazard 0 Flammability 0 Stability 0 Physical and Chemical Hazards N/A Other: N/A

6. ACCIDENTAL RELEASE MEASURES

Methods for Containment Always wear Personal Protective Equipment. Use sand, or pigs to dike area. Keep out of sewer

Methods for Cleaning Up Carefully neutralize with dilute acids or water. Put into approved disposal container.

Other Information Absorb neutralized caustic residue on clay, vermiculite or other inert substance and package in a suitable container for disposal.

7. HANDLING AND STORAGE

Handling Always wear recommended Personal Protective Equipment. Do not breathe vapor or mist. Use only with adequate ventilation. Avoid contact with eye.

Storage Store only in the original container. Store in cool, well-ventilated area. Do not store with aluminum or magnesium. Do not mix with acids or organic materials.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines This product does contain a hazardous material with occupational exposure limits established by the region specific regulatory bodies.

Engineering Measures Showers – quick-drench
 Eyewash stations
 Ventilation systems – sufficient to reduce vapor and mists below permissible TLV levels.

Personal Protective Equipment

Eye/Face Protection Tightly fitting safety goggles.

Skin and Body Protection Wear Chemical Resistant Gloves.

Respiratory Protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations

Hygiene Measures When using, do not eat, drink or smoke. Regular cleaning of equipment, work area and clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	White to Off-White	Odor	Odorless
Odor Threshold	No information available	Physical State	Gel
pH as is	6.0 – 8.0	Autoignition Temperature	No information available.
Flash Point	No information available.	Boiling Point/Range	>220°F
Decomposition Temperature	No information available.	Explosion Limits	No information available.
Melting Point/Range	No information available.	Solubility	Water
Flammability Limits in Air	No information available.	Vapor Pressure	No data available.
Water Solubility	Complete (Weight%)	VOC Content	Not applicable.
Evaporation Rate	No data available.	Partition Coefficient (n-octanol/water)	No data available.
Vapor Density	No data available.		

10. STABILITY AND REACTIVITY

Stability	Stable under recommended storage conditions
Incompatible Products	Carbon monoxide gas may form upon contact with reducing sugars, food and beverage products in enclosed spaces.
Conditions to Avoid	Light, heat, acids, halogenated compounds, ammonia (chloramine gas may evolve), amines, ammonium salts, aziridine, methanol, phenyl acetonitrile, cellulose, ethyleneimine, oxidizable metals, acids, soaps, and bisulfates.
Hazardous Decomposition Products	None known
Hazardous Reactions	May occur with water reactive materials.
Hazardous Polymerization	Hazardous polymerization will not occur.

11. TOXICOLOGICAL INFORMATION

Signs and Symptoms of Overexposure Eye, Mouth, Nasal and Mucous Membrane irritation.

Acute Effects

Eyes	May cause severe conjunctiva irritation and corneal damage.
Skin	May cause irritation.
Inhalation	May cause irritation of respiratory tract and mucous membranes.
Ingestion	May cause irritation.

Target Organ Effects None Known

Chronic Toxicity None Known
Carcinogenicity Contains no ingredient listed as a carcinogen.

Acute Toxicity Values Oral LD₅₀ (Rat) = Not Determined Dermal LD₅₀ (Rabbit) = Not Determined Inhalation LC₅₀ (Rat) = Not Determined

12. ECOLOGICAL INFORMATION

Ecotoxicity

The environmental impact of this product has not been fully investigated

13. DISPOSAL CONSIDERATIONS

Waste Disposal Method This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

Contaminated Packaging Dispose of in accordance with local regulations

California Hazardous Waste Codes 791

This product contains one or more substances that are listed with the State of California as a hazardous waste.

Chemical Name	California Hazardous Waste Status
Sodium Hydroxide	Corrosive

14. TRANSPORT INFORMATION

DOT

Proper Shipping Name	Not Regulated.
Hazard Class	
Description

15. REGULATORY INFORMATION

International Inventories

TSCA Sodium Hydroxide are listed

U.S. Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain chemicals, which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

SARA 311/312 Hazard Categories

Acute Health Hazard	No
Chronic Health Hazard	No
Fire Hazard	No
Sudden Release of Pressure Hazard	No
Reactive Hazard	No

Clean Water Act

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act Amendments of 1990

CERCLA

This material, as supplied, does contain a substance regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). Sodium Hydroxide 1000 lbs, Sodium Hypochlorite 12.5% (80 gal). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material

U.S. State Regulations

California Proposition 65

This product does not contain any Proposition 65 chemicals.

U.S. State Right-to-Know Regulations

Chemical Name	Massachusetts	New Jersey	Florida	Pennsylvania	Minnesota	California
Sodium Hydroxide	X	X	N/A	X	X	X

International Regulations

See Specific Country for Regulations required.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.

WHMIS Hazard Class

Not Applicable
